## BATH

New bathroom experience with Minimal Bath

Undoubtedly, the bathroom stands as the most essential space within any premises or home.

It serves as a sanctuary for personal care, where its function extends beyond daily hygiene to become a source of relaxation, recreation, and a design statement within our environment.

Drawing from our extensive experience in crafting bespoke bathrooms for numerous projects, Minimal Bath has been built upon three fundamental pillars: purity, relaxation, and design.

Purity is exemplified in our minimalistic design approach and the use of ceramic and technical stones, which replicate the appearance and texture of natural stones. Additionally, their unique surface structure ensures impeccable hygiene, the longevity of materials environmentally consciousness.

Relaxation is the second pillar, because Minimal Bath products are designed to ensure perfect harmony transforming the bathroom into an oasis of personal well-being and recreation.

We believe that design can be both contemporary and timeless.

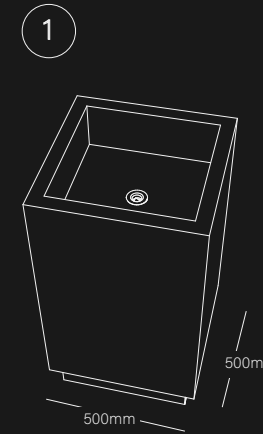

Each piece in the collection is crafted to be unique on its own while seamlessly fitting into total-look concepts.

The production of Minimal Bath is founded on our expertise in handcrafted techniques integrated into serial production. We utilize high-quality materials and the latest technology to ensure excellence in every product.

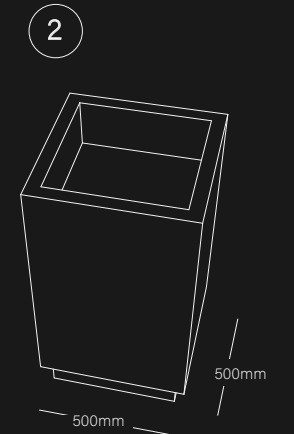

# Pedestal-mounted washbasines

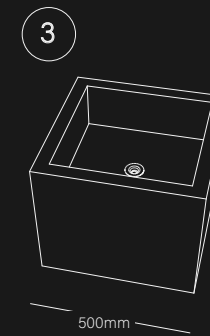

**Pedestal-mounted washbasin  
PM-W-1**  
with stainless steel click clack drain.  
(Waste hole can be placed  
on the ground or on the floor)
