

The background is a dark, almost black, surface with a complex, organic pattern of thin, golden-yellow veins. These veins resemble natural stone or marble, with some thicker, more prominent lines and many smaller, delicate filaments. The overall effect is one of luxury and texture.

2024

Minimal Ceramic

Since 2020 Minimal Ceramic has been crafting custom made furniture for interior projects.

Our credo is to offer the best products in terms of design, quality and function.

That is why Minimal created a premium category outdoor kitchen collection, crafted from the highest quality ceramic and technical stones & appliances, utilizing the latest production technologies, with attention of each details for a perfect lifestyle.

The outdoor collection delivers the same experience as indoor kitchens, while it is resistant to various weather circumstances without compromising on luxury style.

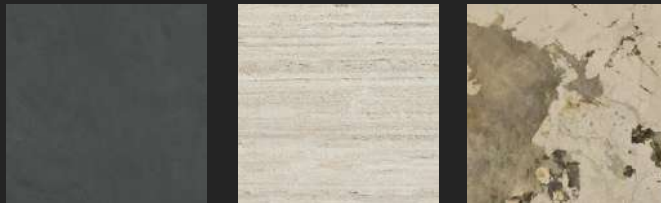

The kitchens are available in different sizes and surfaces with custom made machinery options.

Characteristics of Minimal Ceramic outdoor kitchen collection:

- Elegant style with natural look, all details made with the most precise planning and production
- Resistance to different weather conditions in term of temperature and humidity. The ceramic panels are built on an aluminium structure ensuring the extension, all hinges are made of corrosion resistant material
- Further characteristics: UV resistance, heat resistance, abrasion resistance, stain resistance, colour safe,
- There is no overheating even under prolonged exposure to the sun
- Available basic sizes 2700 and 3200 mm
- Custom made realisation: all projects are made according to the clients need. No two kitchens are alike as all orders are unique. Our team of experts is at your disposal during the planning and installation
- Ceramic panel suppliers: Materia
- Technical stone supplier: Dekton by Cosentino
- Kitchen machine suppliers: MATERIA/COOKING SURFACE PRIME and BeefEater
